## PROFESSIONAL SUMMARY:

I'm a Computer Science student and a passionate web developer with a drive for innovation, problem-solving, and creating functional, user-friendly websites. I have a strong foundation in programming, algorithms, and software development, and I'm eager to apply these skills to real-world challenges. Currently proficient in HTML, CSS, and JavaScript, with foundational knowledge of C, Java, and Python. Actively engaged in coding competitions, hackathons, and open-source work, which have strengthened my teamwork and project leadership. I also serve as the Department Coordinator of the Institution Innovation Council (IIC) and volunteer with the National Service Scheme (NSS). I thrive on continuous learning and look forward to contributing meaningfully to the tech world.

## EDUCATION:

**B. Tech, Computer Science Engineering-CSE**          **Hyderabad**
Malla Reddy College of Engineering-MRCE                2023-2027

St. Ann's High School                                  2011-2021

## ROLES:

- National Service Scheme – NSS Co-Ordinator.
- Institution Innovation Cell – IIC Co-Ordinator.
- Junior Manager at AIESEC in Hyderabad.

## PROJECTS:

- PROJECT TITLE: NaariCabs - A Women-Only Travel Assistance Platform.
- DESCRIPTION:
  Women-Only Travel Assistance is a safety-focused ride-booking platform connecting female riders with verified female drivers. It offers secure cab and carpooling services, real-time tracking, SOS alerts, and post-ride feedback. The platform empowers women by promoting safer travel and encouraging female participation in the transportation industry through training and incentives.
